NEW Trauma Protocol!

Learn how to provide the best possible outcome for your trauma patient by using the new *Wisconsin Trauma Field Triage Protocol*.

Sign Up Now!

Snacks will be
provided

Pediatric Trauma

Children are not little adults. Learn how our trauma assessment, immobilization, and treatment must be specially tailored to pediatric patients.

Triage

Multi-Victim Incidents (MVI): It is not a matter of if, but rather of when. Don't wait until the MVI occurs to review your triage tags, START triage, and EMS plan.
